

2026

INTERIM RESULTS PRESENTATION

20 AUGUST 2026

HEALTHIER, LONGER,
BETTER LIVES

DISCLAIMER

This document (“document”) has been prepared by AIA Group Limited (the “Company”, and together with its subsidiaries, “AIA”, the “Group” or “AIA Group”) solely for use at the presentation held in connection with the announcement of the Company’s financial results (the “Presentation”). References to “document” in this disclaimer shall be construed to include any oral commentary, statements, questions, answers and responses at the Presentation.

No representation or warranty expressed or implied is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information or opinions contained herein. The information and opinions contained herein are subject to change without notice. The accuracy of the information and opinions contained in this document is not guaranteed. None of the Company nor any of its affiliates or any of their directors, officers, employees, advisers or representatives shall have any liability whatsoever (in negligence or otherwise) for any loss howsoever arising from any information contained or presented in this document or otherwise arising in connection with this document.

This document contains certain forward-looking statements relating to the Company that are based on the beliefs and expectations of the Company’s management as well as assumptions made by and information currently available to the Company’s management. These forward-looking statements are, by their nature, subject to significant risks and uncertainties. When used in this document, the words “anticipate”, “believe”, “continue”, “could”, “estimate”, “expect”, “going forward”, “intend”, “may”, “ought”, “plan”, “project”, “seek”, “should”, “target”, “will”, “would” and similar expressions, as they relate to the Company or the Company’s management, are intended to identify forward-looking statements. These forward-looking statements reflect the Company’s views as of the date of the Presentation with respect to future events and are not a guarantee of future performance or developments. You are strongly cautioned that reliance on any forward-looking statements involves known and unknown risks and uncertainties. Actual results and events may differ materially from information contained in the forward-looking statements. The Company assumes no obligation to update or otherwise revise these forward-looking statements for new information, events or circumstances that occur subsequent to the date of the Presentation.

Certain statements relating to the capital management policy in this Presentation may constitute forward-looking statements, including but not limited to statements that are predictions of or indicate future events, plans or objectives of the Company. Please take caution that a number of factors may influence actual dividends payable or share buy-back amounts in any given year, including but not limited to the Group’s actual earnings, capital and solvency requirements applicable to the Group, prevailing economic and financial market conditions, as well as unforeseen requirements imposed upon the Company affecting its ability to execute various capital management initiatives, including those initiatives referenced in this Presentation. In addition, the determination of the amount of future dividends or share buy-backs is subject to approval by the Board and the shareholders of the Company.

This document does not constitute or form part of, and should not be construed as, an offer to sell or issue or the solicitation of an offer to buy or acquire securities of the Company or any of its subsidiaries in any jurisdiction or an inducement to enter into investment activity. No part of this document, nor the fact of its distribution, shall form the basis of or be relied upon in connection with any contract or commitment whatsoever. No securities of the Company may be sold in the United States or to U.S. persons except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act of 1933, as amended. In Hong Kong, no shares of the Company may be offered by the Company to the public unless a prospectus in connection with the offering for sale or subscription of such shares has been authorised by The Stock Exchange of Hong Kong Limited for registration by the Registrar of Companies under the provisions of the Companies Ordinance and has been so registered.

The information herein is given to you solely for your own use and information, and no part of this document may be copied or reproduced, or redistributed or passed on, directly or indirectly, to any other person (whether within or outside your organisation/firm) in any manner or published, in whole or in part, for any purpose. The distribution of this document may be restricted by law, and persons into whose possession this document comes should inform themselves about, and observe, any such restrictions.

Throughout this document, in the context of our reportable segments, Hong Kong refers to operations in the Hong Kong Special Administrative Region and the Macau Special Administrative Region; Singapore refers to operations in Singapore and Brunei; and Other Markets refers to operations in Australia, Cambodia, India, Indonesia, Myanmar, New Zealand, the Philippines, South Korea, Sri Lanka, Taiwan (China) and Vietnam.

AGENDA

01. OVERVIEW AND BUSINESS HIGHLIGHTS

Lee Yuan Siong, Group Chief Executive and President

02. FINANCIAL PERFORMANCE

Garth Jones, Group Chief Financial Officer

Strong 1H 2026 Results, Confident in the Outlook

Value of New Business (VONB)

\$3.2b **+10%**

Record VONB with growth across all distribution channels
VONB growth of 14% excluding Thailand

Operating Profit After Tax (OPAT)

\$4.2b **+13%** per share

Strong earnings drive record Operating ROE of 17.5%
Expect to exceed OPAT per share CAGR⁽¹⁾ target for 2023 to 2026

Underlying Free Surplus Generation (UFSG)

\$3.9b **+10%** per share

Strong cash generation and higher capital efficiency supported
12% per share increase in net free surplus generation

Returns to Shareholders

\$3.6b **+10%**
Returned in 1H26 Interim Dividend per share

High-quality new business generates higher earnings and cash flow,
reinforcing capital resilience and attractive long-term returns

Note:

(1) 9% to 11% compound annual growth rate (CAGR) from 2023 to 2026 calculated on a constant exchange rate basis and net of the impact from the top-up tax under the GMT

**Generating
Sustainable
Shareholder Value**

DEFINITIONS AND NOTES (1 of 3)

- VONB for the Group excluding Thailand is calculated by deducting AIA Thailand's VONB from the reported Group VONB. AIA Thailand's VONB in this calculation is based on local statutory reserving and capital requirements, before the deduction of unallocated Group Office expenses, Group Corporate Centre tax and non-controlling interests.
- Throughout the presentation unless otherwise stated, 1) growth rates and year-on-year changes are shown as 1H26 against 1H25, and 2) comparatives in 2025 (except for those on the movement charts) are shown on a constant exchange rate basis.
- Operating return on EV (Operating ROEV) and operating return on shareholders' allocated equity (Operating ROE) are presented on an annualised basis for 1H26 and compared with FY25.
- Global Minimum Tax regime (GMT) is developed as part of Pillar Two of the Base Erosion and Profit Shifting 2.0 (BEPS 2.0) initiative which became effective in Hong Kong from 1 January 2025. The Group's financial results are net of the impact from the top-up tax under the GMT up to the end of applicable reporting periods, where applicable. For clarity, the Group has not reflected any potential future top-up tax under the GMT in the Group EV, VONB and projected future distributable earnings.
- From 2025 onwards, Group's EV Equity and free surplus results include top-up tax under the GMT with notional GMT top-up tax calculated on an operating profit basis included in EV operating profit and UFSG respectively, while the actual GMT top-up tax incurred is included in EV Equity profit and closing free surplus. The difference between the notional GMT top-up tax calculated on an operating profit basis and the actual GMT top-up tax incurred is included in EV investment return variances and free surplus investment return variances.
- In the context of our reportable segments, Hong Kong refers to operations in the Hong Kong Special Administrative Region (SAR) and the Macau SAR; Singapore refers to operations in Singapore and Brunei; and Other Markets refers to operations in Australia, Cambodia, India, Indonesia, Myanmar, New Zealand, the Philippines, South Korea, Sri Lanka, Taiwan (China) and Vietnam.
- The financial information from 2017 onwards is presented on the 31 December financial year-end basis, and the financial information from 2016 and before is presented on the 30 November financial year-end basis. Growth rates are shown against the corresponding period of 2025 unless otherwise stated. Comparatives for balance sheet items are shown against the position as at 31 December 2025 unless otherwise stated.
- The financial information from 2022 onwards is presented after the adoption of IFRS® Accounting Standards for IFRS 9 and IFRS 17, and accordingly application of an election under an amendment to IAS 16, unless otherwise stated. Throughout the entire document, impacts from IFRS 9 and the amendment to IAS 16 are included when referring to IFRS 17 figures.
- ANP and VONB for Other Markets include the results from our 49% shareholding in Tata AIA Life Insurance Company Limited (Tata AIA Life). ANP and VONB do not include any contribution from our 24.99% shareholding in China Post Life Insurance Co., Ltd. (China Post Life). The IFRS results of Tata AIA Life and China Post Life are accounted for using the equity method in Other Markets and Group Corporate Centre, respectively. For clarity, total weighted premium income (TWPI) and new business contractual service margin (CSM) do not include any contribution from Tata AIA Life and China Post Life.
- The results of Tata AIA Life and China Post Life are both reported on a one-quarter-lag basis unless otherwise stated. The results of Tata AIA Life and China Post Life are both accounted for using the six-month period ended 31 March 2026 and the six-month period ended 31 March 2025 in AIA's consolidated results for the six-month period ended 30 June 2026 and the six-month period ended 30 June 2025, respectively.
- All figures are presented in actual reporting currency (US dollar) unless otherwise stated. Growth rates are shown on a constant exchange rate (CER) basis unless otherwise stated. Change on CER is calculated for all figures for the current period and for the prior period, using constant average exchange rates, other than for balance sheet items as at the end of the current period and as at the end of the prior year, which is translated using the constant exchange rates.
- AIA has a presence in 18 markets – wholly-owned branches and subsidiaries in Chinese Mainland, the Hong Kong SAR, Thailand, Singapore, Malaysia, Australia, Cambodia, Indonesia, Myanmar, New Zealand, the Philippines, South Korea, Sri Lanka, Taiwan (China), Vietnam, Brunei, the Macau SAR and a 49% joint venture in India. In addition, AIA has a 24.99% shareholding in China Post Life.
- ANP represents 100% of annualised first year premiums and 10% of single premiums, before reinsurance ceded.
- ANW is the market value of assets in excess of the assets backing the policy reserves and other liabilities of the life (and similar) business of AIA, plus the IFRS equity value of other activities, such as general insurance business, less the value of intangible assets. It excludes any amounts not attributable to shareholders of AIA Group Limited. ANW for AIA is stated after adjustment to reflect consolidated reserving requirements.

DEFINITIONS AND NOTES (2 of 3)

- ASEAN, officially the Association of Southeast Asian Nations, refers to AIA's operations in Thailand, Singapore, Malaysia, Vietnam, Indonesia, the Philippines, Cambodia, Myanmar and Brunei.
- Average credit rating of the fixed income portfolio represents the credit rating of our bonds, weighted by each bond's market value.
- Composition of investments includes participating funds and other participating business with distinct portfolios, non-par funds and surplus assets.
- Comprehensive equity is defined as shareholders' equity plus net CSM.
- CSM is a component of the carrying amount of the asset or liability for a group of insurance contracts representing the unearned profit the Group will recognise as it provides insurance contract services under the insurance contracts in the Group, net of reinsurance unless otherwise stated. End-of-period exchange rates are used to derive the CSM release rate for the first half and the second half of the year respectively, and CSM release rate is calculated after variances and others and based on end-of-period exchange rates and shown on an annualised basis for half-year results.
- EV Equity is the total of embedded value, goodwill and other intangible assets attributable to shareholders of the Company, after allowing for taxes.
- Expense ratio is measured as operating expenses divided by TWPI.
- Fair value reserve comprises the cumulative net change in the fair value of debt securities measured at fair value through other comprehensive income and the cumulative related loss allowance recognised in profit or loss.
- Free surplus is ANW in excess of the required capital adjusted for certain assets that are not eligible for regulatory capital purposes. Free surplus for AIA is stated after adjustment to reflect consolidated reserving and capital requirements.
- IFRS equity is equity position calculated and reported under the IFRS Accounting Standards.
- IFRS other non-operating items are other non-operating items in IFRS result.
- IFRS results are financial results calculated and reported under the IFRS Accounting Standards.
- HNW stands for high-net-worth.
- Insurance contract services are the services that the Group provides to a policyholder of an insurance contract: (a) coverage for an insured event (insurance coverage); (b) for insurance contracts without direct participation features, the generation of an investment return for the policyholder, if applicable (investment-return service); and (c) for insurance contracts with direct participation features, the management of underlying items on behalf of the policyholder (investment-related service).
- Insurance finance reserve comprises the cumulative insurance finance income or expenses recognised in other comprehensive income.
- Insurance service result comprises insurance revenue, insurance service expenses and net expenses from reinsurance contracts held.
- Leverage ratio is total borrowings expressed as a percentage of the sum of total borrowings, total equity and CSM net of reinsurance and taxes.
- MTNs represents medium-term notes and securities.
- Net CSM is the contractual service margin net of reinsurance, taxes and non-controlling interests.
- Net investment result comprises investment return, net finance income or expenses from insurance contracts and reinsurance contracts held, movement in investment contract liabilities and movement in third-party interests in consolidated investment funds.
- New business CSM (NB CSM) is the CSM relating to new business written in the period, net of any related reinsurance.
- Net free surplus generation (Net FSG) is calculated as underlying free surplus generation (UFSG) less free surplus used to fund new business, unallocated Group Office expenses, finance costs and other capital movements as shown in the supplementary embedded value information. For clarity, net FSG is calculated before the effect of investment return variances and other items.
- Non-participating (Non-par) business includes all insurance liabilities under the General Measurement Model (GMM) model, covering traditional protection, unit-linked with significant protection benefits, universal life and other participating business without distinct portfolios.
- OPAT per share and UFSG per share shown are basic OPAT per share and basic UFSG per share respectively.

DEFINITIONS AND NOTES (3 of 3)

- Operating profit includes the expected long-term investment return for equities and real estate.
- Operating ROE is calculated as operating profit after tax attributable to shareholders of the Company, expressed as a percentage of the simple average of opening and closing shareholders' allocated equity. It is calculated on an annualised basis for half-year results and movement is shown on an actual exchange rate basis.
- Operating ROEV is calculated as EV operating profit, expressed as a percentage of the opening embedded value. It is calculated on an annualised basis for half-year results and movement is shown on an actual exchange rate basis.
- Participating (Par) business refers to participating funds and other participating business with distinct portfolios, with investment experience reflected within insurance contract liabilities, unless otherwise stated.
- Per share information is calculated based on number of ordinary shares outstanding.
- PVNBP margin refers to margin on a present value of new business premium basis. PVNBP margin by product mix are based on local statutory reserving and capital requirements, before the deduction of unallocated Group Office expenses, Group Corporate Centre tax and non-controlling interests.
- Risk adjustment or RA represents the compensation the Group requires for bearing the uncertainty about the amount and timing of the cash flows that arises from non-financial risk as the Group fulfils insurance contracts.
- Shareholder capital resources comprise free surplus and required capital on consolidated basis as disclosed in the Supplementary Embedded Value Information and eligible Tier 2 debt capital as used in the Group Local Capital Summation Method solvency position.
- Shareholder capital ratio represents shareholder capital resources presented as a percentage of the required capital. Movement is shown on an actual exchange rate basis.
- Shareholders' equity is total equity attributable to shareholders of the Company calculated and reported under the IFRS Accounting Standards.
- TWPI consists of 100% of renewal premiums, 100% of first year premiums and 10% of single premiums, before reinsurance ceded.
- Underlying CSM growth refers to the growth in CSM after the CSM release and before variances and others and the effect of exchange rate movements, expressed as a percentage of the opening CSM and shown on an annualised basis for half-year results.
- UFGS, the key operating measure of the Group's capital and cash generation after tax, represents the free surplus generated from the in-force business, adjusted for certain non-recurring items and before free surplus used to fund new business, unallocated Group Office expenses, finance costs, investment return variances and other non-operating items. The underlying free surplus generation is calculated after reflecting consolidated reserving and capital requirements. It reflects free surplus generated rather than a measure of holding company cash flow.
- VIF is the present value of projected after-tax statutory profits by Business Units emerging in the future from the current in-force business less the cost arising from holding the required capital (CoC) to support the in-force business. VIF for AIA is stated after adjustments to reflect consolidated reserving and capital requirements, the after-tax value of unallocated Group Office expenses and Group Corporate Centre tax.
- VONB for the Group is stated after adjustments to reflect consolidated reserving and capital requirements, the after-tax value of unallocated Group Office expenses and Group Corporate Centre tax. The total reported VONB for the Group excludes VONB attributable to non-controlling interests.
- VONB and VONB margin by distribution channel are based on local statutory reserving and capital requirements, before the deduction of unallocated Group Office expenses, Group Corporate Centre tax and non-controlling interests and exclude pension business.
- VONB and VONB margin by product mix and geographical market are based on local statutory reserving and capital requirements, before the deduction of unallocated Group Office expenses, Group Corporate Centre tax and non-controlling interests. For VONB and PVNBP margin by product mix, participating (par) business refers to participating funds and other participating business with and without distinct portfolios.
- VONB includes pension business. ANP and VONB margin exclude pension business and are before the deduction of non-controlling interests.
- VONB margin is calculated as VONB divided by ANP. VONB for the margin calculations excludes pension business and is before the deduction of non-controlling interests to be consistent with the definition of ANP.

A decorative graphic element consisting of two overlapping, rounded rectangular shapes. The top shape is light blue and the bottom shape is a darker blue, both pointing towards the right.
